

# NetBow™

An innovative user friendly container irrigation multi outlet dripper arc with high clogging resistance and superb water distribution.

Superb  
Uniformity

High Clogging  
Resistance

User  
Friendly

## Benefits & Features

- ✓ High clogging resistance by associating Netafim proven Typhoon™ drippers
- ✓ Superb uniformity with 8 dripping outlets
- ✓ Easy to place in the container & to connect the micro tube
- ✓ Surface wetting that distributes the water uniformly in the container substrate
- ✓ The NetBow™ is patented by U.S. Design App. No. 29/709,373 and other countries
- ✓ Options of connecting to diverse of hub drippers like: PCJ , PC, or Uniram™ with Dr. Zip™

## Specs. & Recommendations

- Compatible with 20-40 liters (5-10 gallon) containers
- Diameter: 250mm (10 inches)
- Flow Rate: 8 dripping outlets with flow of 2.0 l/h 0.53 GPH each at 1.0 bar (14.5 PSI)
- The flow from each dripping outlet will be determined by the hub dripper, based on the pressure developed in the NetBow inlet
  - We recommend that the flow of the hub dripper to be 2-8 l/h. If your flow is out of this determined range please follow Netafim guidelines for online drippers design
- Superb Chemical and UV resistance for extended durability
- Colored light gray for improved light reflection
- Max. operating pressure 4.0 bars (58.0 PSI)
